Cuba Policy

Editor: The do nothing policy toward Cuba is a step forward — for Cuba.

The question I have is, if our agencies are so well informed now why did they not know that Mr. Castro had been an active Communist since his college days when the State Dept. and CIA helped or permitted Mr. Castro to gain possession of Cuba?

When Mr. Castro bragged Cuba is the first Communist State in this hemisphere he also announced that he had been a Communist since his college days.
